

## **Important Customer Information: ICS2 and Safety & Security Declaration Charges**

From March 1, 2025, NTEX will implement new charges in line with regulatory requirements for both ICS2 declarations for imports to the EU and Safety & Security declarations for imports to the UK.

### **ICS2 Charge (EU Imports)**

For all shipments where NTEX provides both the Export and ICS2 declaration, the charge will be £35.

For customers using another agent for the Export declaration, the charge for the ICS2 declaration alone will be £20.

### **Border Control Post Fee for Shipments to the United Kingdom**

Since the United Kingdom left the EU, new customs and security requirements have been introduced in several stages.

This means that all goods exported to the UK, regardless of the country of origin, must meet security and customs requirements.

This also applies to shipments sent to Ireland via the UK.

### **Border Control Post Fee**

- Full trailer shipments: £22.13 / SEK285 / €25.67.
- Groupage and part-load shipments: £9.71 / SEK125 / €11.26.

The fee covers compliance with the new reporting requirements from Port Authorities and Shipping Lines and ensures smooth handling of goods at border controls.

If you have any questions, please contact your NTEX representative.
